SANSOX LTD ENTERED A NOTEWORTH AGREEMENT TO SAUDI ARABIA AND GULF AREA MARKETS

SansOx Ltd has signed an agreement on representing of SansOx products with a Saudi company United Family Holding Group (UFHG). The agreement covers sales and marketing, as well as installing and maintaining of products and systems in Saudi Arabia and the broader Gulf region (Bahrain, Kuwait, Oman, Qatar and United Arab Emirates).

United Family Holding Group, a large industrial company in this region, plans and constructs versatile facilities and delivers technologies. UFHG is also willing to develop their competences in water process business, which establishes the link with SansOx Ltd. There exists remarkable need for new technology in this region, but it also possesses a great potential. UFHG is already a long term partner for Finnish Isku Ltd and Ensto Ltd in the area.

The recent agreement means also that SansOx Ltd is assessed to exceed a turnover of more than one million Euros in 2016, which intensifies the active growth phase of the company.

SansOx Ltd was found in 2012 and we are part of the Finnish cluster of cleantech companies. We are dedicated into developing and marketing new innovative solutions and technologies for worldwide clean water market, according to principles of sustaining development. The products and systems work for potable water supplies, industrial water processes, sewages, mining industry, restoration of natural waters, and agriculture & fish farming in order to exceed biological growth. The main products are The OxTube and The SaoxFuge, with their versatile system variations. We are also willing to cooperate with suitable actors in the market.
